

# Nostalgic Singapore Playgrounds

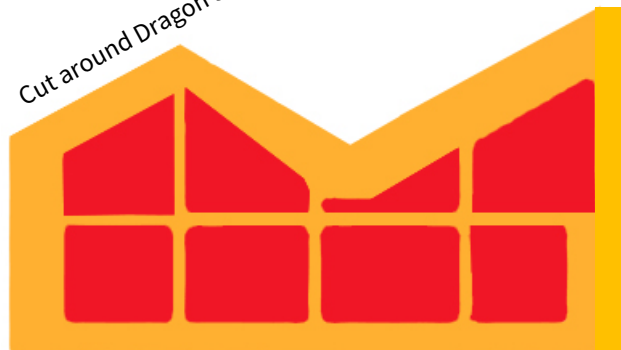

## Instructions:

1) Print this page out. 2) Cut out the dragon head and tail. 3) Apply glue at the back of the dragon head and tail and paste onto cardboard to make them stiffer. 4) Cut out again and set aside.

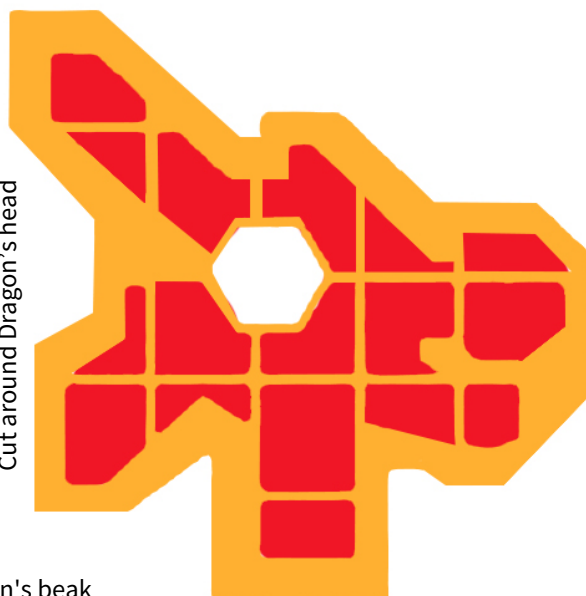

## Making the dragon's accordion body:

5) Cut out four strips on the long side of the paper. 6) You'll need at least four strips if you're using A3 paper or six strips if you're using A4. 7) Stick two strips perpendicular to each other, so they form an 'L'. 8) Fold one strip over another, so they repeatedly overlap. 9) Add on the other strips to lengthen. The longer your strips, the longer your accordion. 10) Apply glue on the dragon head and accordion body, with the ice-cream stick in-between. 11) Do the same for the dragon tail, sticking the back, ice-cream stick and end of the accordion body. 12) Wait for at least 2 hours to dry before pulling on the body.

Cut around Dragon's tail

Cut around Dragon's head

Cut around Pelican's body

Cut around Pelican's beak

Cut around Elephant
