

# Fish Finder: Make Your Own Ocean Torchlight DIY craft

**Make your own ocean scene at home and go on an underwater exploration, all whilst staying dry!**

## Materials Needed:

- Printouts (2 pages)
- Translucent file
- Dark coloured paper x 1
- Permanent Markers
- Scissors

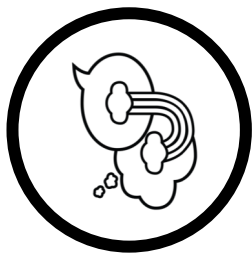

## Instructions:

1. Print out these two pages.
2. Slide the underwater scene printout into the translucent file.
3. Trace out the outlines of the on the top of your translucent file with markers.
4. Colour your underwater sea scene.
5. Colour the handle of the torchlight, if you like. Leave the light portion as white or use a light colour like yellow when colouring.
6. Cut out the torchlight.
7. Place a dark coloured piece of paper in the file, like black or dark blue.
8. Slide the torchlight into the file, between the file and the dark coloured sheet.

You can take it further by naming the different fish and ask your child to find specific marine creatures!

Just go with the flow!

*Cut along the black outline*
